Cleanup

Completely rewrote this article and tried to NPOV it as well as make it a servicable wikipedia entry. Added sources, links and cats as well. If someone else could give it a lookover, I'd be quite appreciative. --Lendorien 14:57, 25 April 2007 (UTC)

This article is a tissue of lies, more so than the original lies that were posted here and which were removed after I pointed them out. I would refer you in particular to

<http://www.geocities.com/satpalramisguilty/>

First though: Ram was not assaulted, attacked or even verbally abused by "six drunken caucasian men" - this is a total fiction. The altercation - such as it was - was purely between Ram and his unarmed victim, whose name you have misspelled.

Second: The Stanley knife is likewise a fiction; Ram's original claim, which he stands by, is that he used a pen knife. That being said, this claim too is a lie, and I would refer you to both the autopsy report and the extremely detailed 1995 Court of Appeal judgment; the murder weapon was a flick knife.

Third: Clarke Pearce did not refuse medical treatment; when he arrived at the hospital he was in no condition to make any such judgment; his sister signed the consent form for the operation, but his injuries were too severe and he died on the operating table.

I could go on but if the above isn't enough you are probably braindead.
